

# Snubbing Units

Our snubbing units are designed for direct operation under pressure, without the need of killing the well or release, featuring environmental protection and energy saving. New style safety, environment friendly and energy saving, SDYJ series coiled tubing units are available now. They are all hydraulically driven, with maximum lifting load ranging from 400 to 2700kN (seven categories), covering stand-alone type and auxiliary type. They can be skid-mounted, trailer-mounted or truck-mounted.

## Series Snubbing Units

Model	Max. lifting load kN(lb)	Max. snubbing capacity kN(lb)	Engine power kW(hp)
SDYJ40	400(90000)	280(63000)	175(235)
SDYJ70	675(135000)	350(135000)	242(325)
SDYJ90	900(202500)	550(1242000)	287(385)
SDYJ110	1125(253000)	850(191000)	335(450)
SDYJ160	1575(354000)	1000(225000)	354(475)
SDYJ225	2250(506000)	1160(261000)	403(540)
SDYJ270	2700(608000)	1700(382160)	403×2(540×2)

**SDYJ225D**  
(skid-mounted stand-alone type)

**SDYF70**  
(skid-mounted auxiliary type)

**SDYJ160D**  
(skid-mounted stand-alone type)
